

INVITATION

By organizing the 5G Techritory conference, our mission is to bring together like-minded people to work on future technologies and their application to everyday life. Technology is easy to scale, so tackling local challenges often leads to creating new products that can solve global challenges and open up new opportunities for business competitiveness and efficiency. The conference will cover innovations in technology that will inspire the development of such projects as Riga Metacity, microchip clusters, or hydrogen valleys. These are the areas where Latvia has a strong scientific capacity and high potential to attract investment.

Laura Štrovalde

Deputy Director in charge of investment and energy issues at
Investment and Development Agency of Latvia

2 DAYS:

**October 18,
October 19**

THIS YEAR'S THEME - 5G IN ACTION

2023 marks the 6th year of 5G Techritory, Europe's leading 5G ecosystem forum, bringing together the industry's thought leaders to connect, discuss, and make collective decisions.

All of these topics are on the table, with more to come: The Metaverse's technical readiness and use cases / Cyber security aspects of 5G / 6G research and development / Open RAN deployment / Digital legislation. Follow agenda updates [here](#)

SPEAKERS

120+ speakers, prominent industry experts, among them: Thierry Breton (European Commission), Rolf Werner (Nokia), Audrey Plonk (OECD), Luukas Kristjan Ilves (Estonian Ministry of Economic Affairs and Communications), Maria Lema (Weaver Labs). All speakers: [here](#)

IN-PERSON ACTIVITIES

In-person activities will be made up of a series of curated workshops, hackathons, seminars, and workgroups to discuss and plan topics to drive measurable and actionable outcomes.

If you're interested in participating in a [co-creation event](#), please send us an email with your request, and we will discuss it further with the co-creation event organizer
