7 roles of hydrogen need to be acknowledged

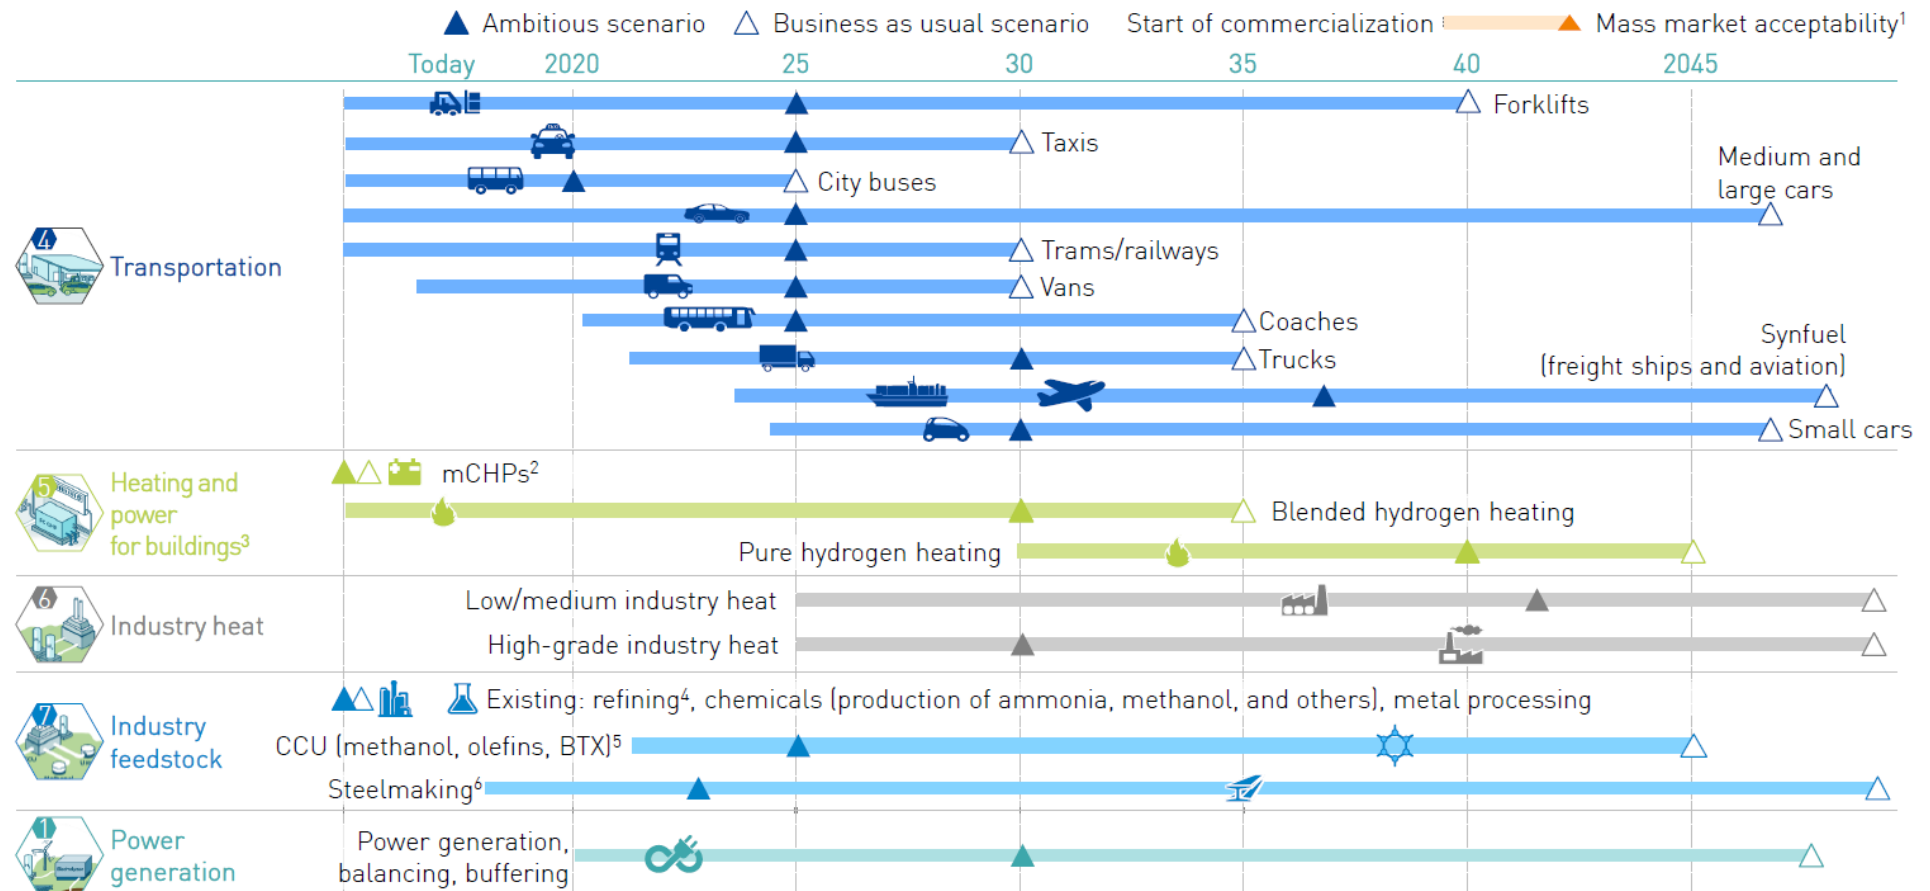

Enable the renewable energy system → Decarbonize end uses

SOURCE: Hydrogen Council

Hydrogen Roadmap for Europe

HYDROGEN TECHNOLOGY EXISTS AND IS READY TO BE DEPLOYED

CEE hydrogen bus roadshow

JIVE/JIVE 2 CEE Bus Roadshow aims to organize FCE bus test drives on public transport routes across cities interested in the technology but cannot access the infrastructures due to their location. The objective is to have the relevant local actors test a demonstration bus to build regional capacity to deploy fuel cell bus technology to **expand the sector in the short/medium term**.

Latvia (Jelgava) | Overall

Caetano, TOYOTA TSUSHO and MESSER to develop a One Stop Shop to offer to bus operators in EU countries.

European Hydrogen Valleys Investment Forum 2024

MEET INNOVATION IN HYDROGEN

The European Hydrogen Valleys 2024 programme is designed to foster meaningful connections, strategic partnerships, and (co-)investments within the hydrogen sectors. The programme culminates in a live event that will bring together the most promising emerging companies, meticulously selected by a Selection Panel, alongside investors, corporate partners, and industry experts.

When?

5-6 September 2024

Where?

Riga, Latvia
