

1st Taftie High Potential Reverse Pitch on Climate Tech organized by EuroQuity

Taftie High Potential Community

The Taftie High Potential Community on EuroQuity aims at gathering the best innovative potential SMEs of each European country to provide them new opportunities to support their growth on a continental level. Among the community's core offerings are services that include organizing both e-pitching and, more recently, the first reverse pitch session.

1st Taftie High Potential Reverse Pitch on Climate Tech

The 1st Taftie High Potential Reverse Pitch Event on Climate Tech is scheduled on 2 July at 11:00 am CEST, this event allows prominent investors to present their vision, focus areas, and what they seek in emerging climate tech ventures. Climate Tech startups and innovators have the chance to hear firsthand from these industry leaders, gaining tailored insights to refine their pitches and align their initiatives with investor expectations, thereby increasing their prospects of securing investment.
